ARC X®

EXTRAORDINARY LENGTHS™

NATIONAL PRODUCT CATALOGUE

ARC FENCES   **Weldmesh.™**   **Cyclone® SECURITY**

ARC is Australia's first and leading manufacturer and supplier of steel reinforcing and fencing products.

Established in 1920 as the Australian Reinforced Concrete Engineering Company Pty Ltd, ARC was the first to produce fabricated mesh for the Australian market.

With over 35 locations including 5 main manufacturing sites, ARC is well equipped to supply and service projects of all sizes, from bridges to pool and garden fencing, skyscrapers to schools, and industrial Cyclone fencing.

OUR PRODUCT CATALOGUE

This catalogue features information on a selected range of ARC products. You can also find our products and catalogue on our website www.arcreo.com.au Should you require further information or details of our wider range, don't hesitate to speak with one of our friendly staff.

This publication should be used a guide only.

Published Feb 2013.

Product Availability

Products contained within this catalogue may not be stocked at all locations. Furthermore some products are subject to minimum quantities, availability, lead times and extra freight charges may be applicable to products not stocked. We draw your attention to our terms and conditions of sale found in this catalogue. Please confirm the availability of the products you require, prior to placement of your order.

QUALITY

We are extraordinarily proud of our products and their quality. All ARC reinforcing bar and mesh is ACRS accredited and tested in NATA registered laboratory.

We hope you find our catalogue valuable in assisting you with your next project.

ARC X®

The Australian Reinforcing Company (ARC) is committed to pursuing a high standard of environmental management throughout all its operations. ARC strives for continual improvement of environmental performance, the efficient use of resources, and the minimisation or prevention of pollution.

ARC uses a high proportion of recycled steel in the manufacturing of it's reinforcing mesh and bar products.

ARC AND THE GREEN STAR SCHEME

Green Star is a scheme developed by the Green Building Council of Australia (GBCA) with the purpose of recognising and rewarding environmental leadership within the building industry. Under the scheme, rating tools award points and credits within 9 distinct categories, one of which relates to building materials.

The credit which relates directly to steel is MAT-6 within the Office Design tool and MAT-5 in the other base building rating tools. More information can be found on the GBCA website www.gbca.org.au

The great news is that ARC's reinforcing products can contribute towards your project achieving its Green Star rating.

- Steel-making facilities have ISO14001 Environmental Management System (EMS) in place
- Members of World Steel Association's Climate Action Programme
- Steel-making facilities that utilise Polymer Injection Technology to reduce energy consumption
- 500Mpa Reinforcing steel, compliant with AS/NZS 4671 and ACRS approved.
- Use of off-site optimal fabrication techniques

For more information ask your local ARC sales representative or visit the ARC website at www.arcreo.com.au

STANDARD REINFORCEMENT

SQUARE MESH

Full Size Sheets

Product Code	Long Wire (mm)	Cross Wire (mm)	Approx Mass /Sht (kg)	Pack Size
SL81	7.60 @ 100	7.60 @ 100	105	20
SL62	6.00 @ 200	6.00 @ 200	33	50
SL72	6.75 @ 200	6.75 @ 200	40	40
SL82	7.60 @ 200	7.60 @ 200	52	30
SL92	8.55 @ 200	8.55 @ 200	65	20
SL102	9.50 @ 200	9.50 @ 200	80	20

Ribbed wire reinforcing mesh in standard 6.0m x 2.4m sheets. Complies with AS/NZS 4671.

4B2 MESH™

Product Code	Long Wire (mm)	Cross Wire (mm)	Approx Mass /Sht (kg)	Pack Size
SL62-4B2	6.00 @ 200	6.00 @ 200	18	40
SL72-4B2	6.75 @ 200	6.75 @ 200	23	40
SL82-4B2	7.60 @ 200	7.60 @ 200	30	40

Standard square mesh in a convenient 4.0m x 2.0m sheet size. Complies with AS/NZS 4671.

TIP

To estimate the number of full size (6m x 2.4m) sheets of mesh required to cover a known area.

Divide the area in square metres (m²) by 12.4 and then round up to the next whole number.*

For example: for an area of 160m²

160 / 12.4 = 12.9

So you need 13 sheets of mesh.

*based on standard laps of 2 outermost edge wires.

TIP

To estimate the number of trench mesh sheets required to fill a known length of beam.

Divide the length of the beam in linear metres (m) by 5.4 then round up to the next whole number. Then multiply by the number of layers.

For example: for a 24m beam

24 / 5.4 = 4.4

So you need 5 sheets of trench mesh per layer.

ARC X®

RECTANGULAR MESH

Product Code	Long Wire (mm)	Cross Wire (mm)	Approx Mass /Sht (kg)	Pack Size
RL718	6.75 @ 100	7.60 @ 200	68	20
RL818	7.60 @ 100	7.60 @ 200	79	20
RL918	8.55 @ 100	7.60 @ 200	93	20
RL1018	9.50 @ 100	7.60 @ 200	109	15
RL1118	10.65 @ 100	7.60 @ 200	131	15
RL1218	11.90 @ 100	7.60 @ 200	157	10

Ribbed wire reinforcing mesh in standard 6.0m x 2.4m sheets. Complies with AS/NZS 4671.

TRENCH MESH

Product Code	Width (mm)	No of Wires	Approx Mass /Sht (kg)	Pack Size
L8TM3	200	3	7	40
L8TM4	300	4	9	40
L8TM5	400	5	11	
L11TM3	200	3	13	30
L11TM4	300	4	18	30
L11TM5	400	5	22	
L12TM3	200	3	16	30
L12TM4	300	4	22	30
L12TM5	400	5	27	

Ribbed wire trench mesh in 6.0m lengths. Complies with AS/NZS 4671.

N20S12	12000	390	32
N24S9	9000	271	30
N24S12	12000	271	23
N28S12	12000	199	17
N32S12	12000	152	13
N36S12	12000	120	10

Deformed steel reinforcement bar Grade D500N to AS/NZS 4671.

SWIMMING POOL REINFORCING BAR

Product Code	Stock Length (mm)	Metres Per Tonne	Lengths per Tonne Approx
S12S6	6000	1083	181
S12S9	9000	1083	120

Deformed bar Grade D250N to AS/NZS 4671. Used in the construction of domestic swimming pools.

ROUND BAR

Product Code	Stock Length (mm)	Metres per Tonne	Lengths per Tonne Approx
R6S6	6000	3691	615
R10S6	6000	1560	260
R12S6	6000	1083	181
R16S6	6000	609	102
R20S6	6000	390	65
R24S6	6000	271	45
R27S6	6000	214	36
R33S6	6000	143	24
R36S6	6000	120	20

Round bar Grade R250N to AS/NZS 4671.

TIP

To estimate the approximate weight of a bar product in kilogrammes per metre (kg/m).

Divide the number 1000 by the metres per tonne value from the table.

For example: For 16mm bar

1000 / 609 = 1.6 kg/m

BDEF150C	Edgeform 1mm x 150mm cut
BDINFILL	Plastic Infill Strip 25 x 3000mm
BDFILL	Polystyrene Infill Strip 1200mm

Structural formwork system to form a suspended composite concrete slab. Cover width 590mm.

STRAMIT CONDECK HP® & ACCESSORIES

Product Code	Description
CD75C	0.75mm Condeck HP®. Cut to length
CD100C	1.00mm Condeck HP®. Cut to length
CDEF100C	Edgeform 1 x 100 x 100mm cut
CDEF125C	Edgeform 1 x 125 x 100mm cut
CDEF150C	Edgeform 1 x 150 x 100mm cut

Structural formwork system for suspended composite concrete slabs. Cover width 300mm for easy handling.

CRACK-A-JOINT ®

Product Code	Description	Dimension (mm)	Min Qty
DYCRAK253	Plain	25 x 3000	25
DYCRAK453	Plain	45 x 3000	25
DYCRAK253B	Rip a Strip Black	25 x 3000	10
DYCRAK453B	Rip a Strip Black	45 x 3000	10

Fluted preformed metal crack inducer designed to induce a crack along the strip as the concrete cures.

CRACK INDUCER ON GROUND

Product Code	Description	Dimension (mm)	Min Qty
DYGCRACK25	Plastic Strip	3000 x 25mm up to 200mm slab	10

Designed to induce a crack in floor slab from the ground up. To be used in conjunction with Danley Dowel Cradles.

DOWEL BARS BLACK

Product Code	Length (mm)	Bar Size
DL16450FC	450	16
DL16600FC	600	16
DL20450FC	450	20
DL20600FC	600	20

Black round bar used to control movement in joints of concrete slabs. Grade R250N friction cut.

DOWEL BARS HOT DIPPED GALVANISED

Pool compliant, 1200mm h.*

WILLOW/SUNSHINE™

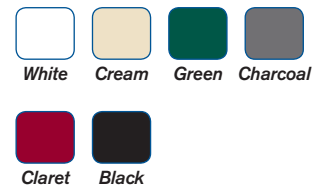

Pool compliant, 1200mm h.*

The ARC range of wire fencing provides distinct and elegant styles for your home or pool. Designs are available in either a galvanised or powder-coated finish. *The Willow/Sunshine and Wattle styles are the options for pool fencing only (at 1200mm h).*

Wire fences are typically rolled over top and bottom and are perfect for multiple applications around your house, whether it be to secure a small area or use as a front garden fence. The fencing styles on this page vary in each state and come in a range of heights and lengths. For the sizes and styles available in your state, contact **ARC Fences** on **13 15 57** or view our full range of fencing products and ideas at **arcfences.com.au**

*POOL FENCING INFORMATION:
Swimming pool regulations vary between states. Check with your local council to ensure your pool fence is compliant. You can also view our website for further information relating to Australian Standard and pool safety **www.arcfences.com.au/safety/**

These colours are a sample only. ARC Fences has a full range of decorative colours available. Conditions do apply for nonstandard colours.

Through rail and face welded designs

- Through rail - the panels are strengthened by passing the vertical tubes through the top and bottom rails of the fence.

- Face welded - welds and tubes are exposed

Panels are available in various sizes and colors. Posts, gates and accessories are also avalaible.

Why choose Cyclone?

Cyclone® has been providing fencing solutions to Australia for over 100 years. We have an extensive range of products that are built to last.

- Excellent security - provides constant security against trespassers, pilferers and animals

- Long-term durability - stands up to rugged conditions and requires minimal maintenance

- Design Flexibility - additional fencing can be matched with the original for future extensions

- Footprint - same product wherever you go

- Helpful advice - our friendly team of fencing staff will work with you to ensure you'll get the right product for your project

- Recognised excellence - compliance with Australian Standard
